# Bold Iowa

## Organized Resistance to Stop the Bakken Oil Pipeline

*“It’s not a matter of if a pipeline spills, but **when.**”*

### WHAT WE KNOW (and it’s not much right now):

- Governor Terry Branstad and a Fortune 500 Big Oil corporation (Energy Transfer Partners LP) want to take farmland from thousands of everyday Iowans in order to build an environmentally dangerous oil pipeline.
- The project would transport 420,000 barrels/day of highly volatile Bakken crude oil from North Dakota through 17 Iowa counties to the Gulf of Mexico.
- Energy Transfer Partners LP has begun to contact landowners, and they will be holding meetings in the 17 counties where the pipeline is proposed.

### WHY WE ARE AGAINST THE PIPELINE: A giant oil pipeline is not in the public interest of everyday Iowans.

**Our Water** – When the pipeline spills or breaks, it could **pollute** the drinking water of hundreds of thousands of people.

**Our Land** – Farmers who do not want to sell their land could have it stolen from them through **eminent domain**. Farmers who sell their land will not get a fair price or be justly compensated for the damage to their crops and soil.

**Our Future** – This project **will not** create good, safe, permanent jobs. Enough is enough! It’s time to put the people and the planet before pipelines and corporate profits. It would add to the permanent infrastructure that accelerates our exploitation of unsustainable fossil fuels and further exacerbate **climate change**.

The **Bold Iowa** coalition is a network of everyday Iowans from all walks of life and the community, consumer, environmental, farm, student and women groups we all belong to. To learn more about how to stand up and defend your rights against Big Oil, contact the Bold Iowa coalition via Iowa Citizens for Community Improvement 515.282.0484 / [iowacci@iowacci.org](mailto:iowacci@iowacci.org)
